NOTE 6p.

EDRS PRICE MF-$0.83 HC-$1.67 Plus Postage.
DESCRIPTORS Age; Community Colleges; *Enrollment; General Education; *Junior Colleges; Sex Differences; *Student Characteristics; *Summer Schools; Transfer Students; Vocational Education

ABSTRACT

Enrollment data are summarized to give numbers and percentages of students by sex, age, program, student status, residence, and units carried. Males (59%) outnumbered females (41%), but the proportion of females increased over the previous year from 35% to 41%. More students enrolled in liberal arts programs (43%) than in vocational education (30%), but both programs decreased from the previous summer's proportions of 48% and 36% respectively, while unclassified students increased from 15% to 27%. The numbers of new and transfer students rose slightly, while the average age dropped from 29.2 to 28.4. The modal age for summer, however, was 35-39, as compared with 18-19 in the spring semester, 1977. Summer session enrollment increased at all six participating colleges, with the general education area generating 66% of the total units carried. Statistical tables are included giving registration for individual colleges and summary student characteristics data of all colleges. (RT)

THE 1977 SUMMER SESSION COMMUNITY COLLEGES

The enrollment data of summer session students continue to be of great interest to the community colleges. Although the emphasis of this report is on students in regular credit programs, data on registrations in other summer programs are also included. Hawaii Community College did not have a summer program.

The summer session programs of the community colleges are offered under the aegis of University of Hawaii, Manoa, Summer Session Office.

Sources of Data

Except for Table I, the information cited in this report was extracted from the Student Enrollment Reports (SERs) as of July 5, 1977. The basic data are derived from the student applications and class registrations. Additional information displayed in Table I was solicited from coordinators, deans of instruction and/or registrars of the various campuses.

Highlights

1. Total Registrations (Table I)

Student registrations in "other" summer programs (senior citizens, job experience, community service, etc.) comprise 48% (3,295) of the total enrollment (6,886); regular credit students, 42% (2,891) and Manpower Training Office, 8% (522).

2. Regular Students (Table II and III)

The enrollment of 2,891 regular students represents a 9% increase from last summer's enrollment of 2,657 students. Individual college enrollments show increases from 5% to 18%.

a. Sex: As in previous years, males (59%) continue to outnumber females (41%). However, in contrast to last summer, the proportion of females has increased from 35% to 41%. Most notable are the proportional increases of females at Honolulu (38% to 45%), Windward (25% to 33%) and Kapiolani (51% to 60%).

b. Program: There are more students enrolled in the liberal arts program (43%) as compared to the vocational education (30%) programs. Both of these programs represent a decrease from last summer's proportions of 48% and 36% respectively.

VC 770 380

In contrast, the number of unclassified students has almost doubled (395 students, 15% in summer 1976 to 770 students, 27% in summer 1977).

c. Student Status: Proportionately fewer students are "continuing" students, 74%, compared to 80% last summer. There are slight increases in the proportion of new students (from 7% to 9%) and transfer students (from 11% to 12%). Data on the last college attended by transfers show 213 students from within the UH System, 16 students from Hawaii's private colleges and 75 students from out-of-state colleges. Most notable are 152 transfer students from the Manoa Campus who are mostly enrolled at Leeward (65 students), Maui (42 students) and Kapiolani (27 students).

d. Age: The mean age of 28.4 years is slightly younger than the mean age reported last summer (29.2 years). However, the summer session students are about 3 years older compared to the regular students of the spring 1977 semester (25.5 years). The modal age group for the summer students is the 35-59 years category as contrasted to the 18-19 years category during spring 1977.

e. SSH: The summer 1977 students are taking a total of 12,342 SSH compared to last summer's total of 11,517. As reported last year, 66% of all the SSH generated are in the general education area.

Summary

The summer session enrollment increased at every college. There are proportionately more females, new, transfer and unclassified students enrolled this summer. Why are the summer programs attracting older students? What impact do veterans have on the summer enrollments?

TABLE I
REGISTRATIONS
COMMUNITY COLLEGES
SUMMER 1977

Note: Hawaii Community College did not offer a summer program.

*During March 1 to May 15 apprenticeship/journeymen programs reported additional registrations of 2,117: Honolulu (1,853), Kauai (87), Leeward (10) and Maui (167). These were not included in the Spring 1977 enrollment report, IRP 101, because of timing.

**Includes programs such as senior citizens center, job experience, Kalihi-Palama education center, non-credit classes and community service. Additional registrations of 4,169 were reported during the period of March 1 to May 15: Honolulu (2,953), Kapiolani (140), Kauai (85), Leeward (375), Maui (21) and Windward (595). Community service programs using Manoa's CCECS as a funding agency report 201 registrations during the period of March 1 to May 15: Maui (116) and Windward (85); and 70 registrations during the period of May 16 to July 5: Maui (65) and Windward (5).

***Coding error.

#Additional registrations of 146 were reported for the period covering March 1 to May 15.

+Includes Hawaii regular MTO programs and Hawaii military career education programs. In addition, 429 registrations were reported for overseas programs. During the period covering March 1 to May 15, 1,442 registrations were recorded: MTO programs (186), Hawaii military career education program (427) and overseas military programs (829).
